

Support a Vancouver Island Corridor that will be of real value to the economy, communities and people of Vancouver Island.

Petition to **Island Corridor Foundation**, and those who influence its decisions.

We, the undersigned, request that the route of the E&N Railway from Victoria to Courtenay and possibly beyond be converted to a paved trail that will benefit local transport, tourism, road safety, health promotion and social inclusion. This will benefit people and communities along the length of the corridor to a far greater degree than the currently proposed, freight dependent rail proposal.

Please help by sharing this petition and asking people you know to sign:
